Product: Personalized Employee Training Software

Vision :

To become a world's leading company in creating services which enhance employees' job experience all over the world.

Start-up :

Founded in 2020, DoMyJob is dedicated for personalizing employee's job experience benefiting companies too. We create solutions to engage employees in their training and make it fruitful for their day-to-day work. We are in continuous communication with corporate and employees to understand their needs and then creating services incorporating their feedback. We are dedicated to establishing a healthy work environment for corporate.

DoMyJob will provide a platform for all the company's (customer) employee training related needs. The platform will help an employee learn necessary skills faster and in turn would increase profits for the customer company. Since our targeted customer seeks high-quality and excellent services at competitive prices, we will be providing different tiers of the service as per the customer needs.
